

# "The Pipeline" NUCA OF THE CAROLINAS

PRESIDENTS REPORT

July, 2021

Summer is here!!! The days are getting longer and the mercury is rising. I hope everyone is wearing sunscreen and staying hydrated. As we enter the busiest time of the season we need to make sure we all keep the safety of our employees and our families in the forefront of our minds. Since the last newsletter we attended the Washington Summit virtually in James River Equipment's "ZOOM Room". I would like to thank Greg Fuller & Brian Dillenback with James River for setting up the conference room and providing lunch for us. Thanks to Linda for setting up the meetings with the members of congress in the House and Senate.

Thanks to Glenn Foley, Gregory Poole Equipment; Mike Hewitt, Garney Construction; Greg Voltz, Fortiline and Keith Vandergrift, Ferguson Waterworks for attending as well. We made NUCA of the Carolinas voice heard along with all the other chapters across the country. The emphasis was on increased federal infrastructure support not only for roads and bridges, but for water sewer and broadband as well. We voiced concerns with the "Buy America Only" approach as well as the current difficulties the industry is having procuring and shipping materials. With the everchanging description of infrastructure it will be hard to tell what the end legislation will look like. Hopefully it will be focused on tangible assets the country truly needs.

NUCA would like to thank all the companies that participated in the Trench Safety Stand Down. It is important to take time to focus on safety not only for our employees, but our entire industry as well. Please send your information to NUCA National for recognition.

We are looking forward to the 2021 NUCA Open Golf Tournament toward the end of the month. Thanks to Chris Sellman, Kevin Cripps and Linda for organizing the event at The Cardinal by Pete Dye in Greensboro. The support has been terrific with all slots filled. Thanks to all that have helped sponsor this event! Xylem, Inc. is our "Tournament Sponsor" this year!

Linda has also arranged for The NUCA Institute for Leadership Development to offer a 2 day "Leadership Skills for Crew Leaders" program. The course will be held at James River Equipment. Please contact Linda if you are interested in sending someone.

I would like to wish everyone a safe and productive summer. I look forward to seeing everyone at the NUCA Open. As always, please reach out to others in the business and tell them about our great organization.

Brian Wilkerson  
JF Wilkerson Contracting  
NUCA of the Carolinas President

Sponsored by NUCA of the Carolinas

# Leadership Skills for Crew Leaders

**Sign up Today—  
Space is Limited!**

A successful crew leader or foreman knows how to use problem solving, planning, and resource management skills to get a job done. Effective people management skills are also an essential part of the job.

The NUCA Institute for Leadership Development is pleased to offer – **Leadership Skills for Crew Leaders** – that will give new and experienced field supervisors the basic tools they need to succeed in their position.

The 2-day program is taught by an experienced construction professional who understands the challenges of being a crew leader. The curriculum covers people management skills, the basics of safety management, and effective project control. Continental breakfast, coffee and deli lunch provided both days of training.

**Crew Leader Training**

# NUCA OPEN GOLF TOURNAMENT

## 2021 NUCA Open Golf Tournament

Thursday, July 29, 2021

### “The Cardinal by Pete Dye”

5700 Cardinal Way  
Greensboro, N.C. 27410

NUCA Members I'm very excited to announce that Congressman Mark Walker & Rep. Jon Hardister will be joining us at the NUCA Open this year. This is the first time having a Representatives join us for the event. I would like to see about donating from our PAC to both of their Campaigns. But to do that we need to raise some money for the PAC. Let see what we can raise over the next two months for our PAC. If you have any questions, please contact Linda or myself. Also, just to start it off I will donate \$1,000 dollars. Thanks, Kevin Cripps

## A MESSAGE FROM THE CHAIRMEN

Summertime has arrived, that means the heat and humidity are also with us. We need to make sure our workers are staying hydrated. OSHA recommends 8oz of water every 20 minutes. Make sure the employees are also replacing lost fluids with some type of Sports drink and not Energy drinks. We need to train our employees on how to recognize the signs of Heat Related Illnesses such as Heat Cramps, Heat Exhaustion, and Heat Stroke. You send out some Tool Box Safety Talks for the workers to discuss. National NUCA has revamped the Tool Box Safety Talks on their website. You, as a member, have access to them, so use them. That's what your membership dues help pay for.

I hope that everyone took a time out and held a Trench Safety Stand Down. I enjoy this type of training. I get to train in the workers environment and most of the time, it's right beside their Trench. National NUCA is compiling the total numbers on participation, but I think that we had some great involvement. Our Associate members that deal with Trench Safety really helped promote the TSSD. I really appreciate our Associate members!!! Thanks for all that you do for us. I truly believe that we can make a difference if we will keep promoting Trench Safety. If it prevents just one trench fatality, it was worth our time and effort.

On May 26<sup>th</sup>, the NCDOL held a virtual Construction Safety Forum. The NCDOL had over 50 attendees in this virtual class. I had a 15-minute session in which I promoted NUCA of the Carolinas as well as our Trench Safety Stand Down. We had several Companies respond that they would be participating in the TSSD. NCDOL also promoted the TSSD on their website. I say thanks to NCDOL for promoting the NUCA Trench Safety Stand Down and thanks for your continued support of NUCA of the Carolinas through our Alliance Agreement.

On Tuesday, August 17<sup>th</sup>, we will have our next Safety and Risk Management Committee meeting at the NC811 office in Greensboro. Please make plans now to attend. These meetings are very informative and interactive so please come or send someone from your company.

I know that everyone is very busy with work, but I encourage to continue to train and educate all of your employees. The next several months of heat can be a very tough environment to work in, especially for your new hires. I hope everyone has a safe and productive Summer. Keep digging safely!!

From the trenches—Wes Sells, BRS, Inc. NUCA Safety Committee Co-Chair

July and August! Two months we all anticipate and look forward to with regards to some vacation time off and the start of Football Season! July and August are the heart of the HOT months we have here in the Carolinas and because we all push hard for productive days in the field, it is imperative that we do all we can to remind our employees of the Dangers of Heat Illness. Heat rash, Sunburn, Heat cramps, Heat exhaustion, and Heat stroke are areas we must all take seriously this time of year. It boils down to creating an awareness through Education for our employees to know that Drinking plenty of fluids, taking frequent breaks, and cooling down in the shade is critical for staying hydrated, alert, and healthy. Everyone please take time these next few weeks to make your employees aware of these Heat Illness areas and what to do if they begin to experience Heat Cramps, Heat Exhaustion, or show signs of a Heat Stroke. Summer is a great time to make production, work long days, and even take some time off. None of us can do any of these things if we are sick from Heat Illness.

Stay healthy! Stay focused! Stay SAFE!

Greg Maready – NUCA Safety Committee Co Chair

Half way through the year. Hard to believe but here we are. Volume still up over last year with anticipated increase as we see multiple projects either beginning or underway. NC 811 is continuing to hire CSRs with an eye to increasing the number of bilingual agents. We anticipate receiving a PHMSA grant which will be used partially for Spanish billboards to go up around the state. We are excited to see water tanks and tailgates sharing the 811 message all over the state and an increased awareness among homeowners. August 11 is on the horizon and with it another opportunity to educate as we roll through the summer. Is it just me or does it seem like just yesterday we were celebrating New Years? Getting old...

We are hopeful to see meetings beginning to take place live. The event center is configured to allow for hybrid meetings and NUCA is hosting one of the first in August. This may be a new reality but I am hopeful it becomes a rear view mirror situation with more companies allowing for travel in the fall.

Meanwhile I look forward to seeing folks at the NUCA open on July 29th! Stay safe, stay hydrated and may all the storms avoid making a major presence in North and South Carolina!

### Trench Safety Stand Down Week Ends On A Safe Note

From all initial reports, it looks like the fifth annual Trench Safety Stand Down (TSSD) held June 14-18 delivered to thousands of our industry's employees what NUCA sought: an increased attention to safety around jobsite excavations. So far, NUCA has TSSD 2021 reports from 238 companies, instructing 13,550 employees at 1,200 jobsites. We know more NUCA members took time during the workweek to keep their employees safe--please send NUCA your completed TSSD reports by the end of July (and event photos, too)! Submission information can be found at [www.nuca.com/tssd](http://www.nuca.com/tssd).

## **Sign Up For NUCA's Muster Advocacy Program**

With infrastructure the hot topic in Congress this spring, make sure you sign up to NUCA's Muster legislative action alert service. It's easy to do, and we'll then alert you by email to upcoming infrastructure legislation that you can help promote and support. We've even completed a pre-written letter that you can send to your federal lawmakers with a click of your mouse. Sign up today to make your company part of getting America back to work! Sign up [HERE](#).

## **NUCA WINS: A Best Practice in Your Reporting**

NUCA's Workplace Incident Notification System (NUCA WINS) is a damage incident recording app that employees' can easily operate on their mobile device to document the situation at the point-of-occurrence. In a matter of a few minutes' incidents can be easily and completely documented, including injuries and illnesses; property, liability, and utility strikes; near misses; safety observations; and more. Learn more [HERE](#).

**NUCA Advantage Benefits Program** go [HERE](#) to see all that this program offers all NUCA Members

## **Infrastructure Package**

Negotiations in both the House and Senate continued over the Independence Day recess, with a bipartisan House group, the Problem Solvers Caucus, announcing they support the Senate's own centrist group \$1.2 trillion (over eight years) core infrastructure plan. The caucus, which includes 29 Democrats and 29 Republicans, is significant for the GOP support, which may be enough to pass this package in the House. However, details of the package beyond a framework remain remains unknown, since no legislation formalizing this deal has been introduced in either chamber. And news reports continue to highlight that payment for the plan remains in question. [Read more here](#).

## **U.S. House Approves \$168 Billion for Water**

On July 1, the House passed its INVEST in America Act (H.R 3684), which included a reauthorization of the surface transportation bill advocated by NUCA members during the spring Washington Summit. The bill also includes a whopping \$117 billion for the Drinking Water state revolving fund (SRF) and lead pipe replacement projects, and \$51 billion for the Clean Water SRF. These are significant increases from past funding levels, and is strongly supported by NUCA.

## U.S. House Approves \$168 Billion for Water SRFs

On July 1, the House passed its INVEST in America Act (H.R. 3684), which included a reauthorization of the surface transportation bill advocated by NUCA members during the spring Washington Summit. The bill also includes a whopping \$117 billion for the Drinking Water state revolving fund (SRF) and lead pipe replacement projects, and \$51 billion for the Clean Water SRF. These are significant increases from past

While the bill does include some labor policy changes not supported by NUCA, H.R. 3684 now heads to a conference committee to work out the differences, remove partisan language that will not pass a sharply divided Congress, and merge it with the Senate's version (S. 1931). NUCA expects that Senate bill to be voted on by the upper chamber later this month before their August recess. NUCA will keep our members apprised on its progress in the weeks ahead.

## SAVE THE DATE—FALL WASHINGTON SUMMIT—NOVEMBER 2-3, 2021

NUCA leadership recognizes the significant importance of this year in Congress for infrastructure funding topics, especially for certain bills we've been advocating for over the last 20 years. Please mark your calendar for November 2-3 to be part of NUCA's first in-person visits to your lawmakers' offices on Capitol Hill in Washington, D.C.

The momentum we've built in Congress for water, wastewater, and broadband issues will only grow over the summer--and we need you to help seal the deal. Held in conjunction with the NUCA fall Board of Directors meeting and Chapter Development Conference (Nov. 1), the fall 2021 Washington Summit promises to be one of the most exciting ones held in many years. We will release more details about the event in the following weeks, including hotel location and registration fees.

## Our New Grassroots Outreach Software Partnership

Organize. Mobilize. Muster.

### Grassroots Tools To Drive Action

Muster's advocacy tools not only make it easy for you to build powerful campaigns, but simple for your advocates to click and take action via email, patch-through phone calls, social media, and more.

### Advocacy At Every Level

Whether you have a local, state, or national issue to conquer, Muster's advocacy software gives you the power to target policy-makers at every level of government along with committees and custom targets.

### Unparalleled District Matching

All of your contacts are geocoded, meaning we go beyond just zip-to-district matching to ensure your advocates are matched with their correct elected official by creating a coordinate for each address.

### Data For Better Advocacy Campaigns

With real-time engagement analytics and the ability to export campaign and contact data — your organization can measure ROI, discover new supporters, and benchmark member engagement.

## What Muster Does for NUCA Members

Muster – our new grassroots campaign platform – will allow NUCA to mobilize its membership for grassroots messaging campaigns, conduct geotargeted member surveys, and easily communicate with NUCA members on state and national issues. Our new convenient platform gives you a direct line to your Members of Congress and the Administration, and makes it easy to join other NUCA members in making your voice heard about the issues that matter to you and your business.

Muster messages will consist of email broadcasts and targeted online messaging campaigns which allow you to send letters to your state and federal lawmakers with only a few clicks, helping you to contact your representatives on issues that matter while only taking a few minutes out of your busy day. At a time when everything is virtual, your participation in our grassroots campaigns will be more effective than ever in pushing for positive change on NUCA issues.

## What We Need from NUCA Members

Your contact information – name, email address, mailing address (for geotargeting purposes), and phone number – please ensure that your Chapter has your latest information, as Chapters will serve as our database

NUCA will be using an OPT-OUT system –

Please contact your ED as soon as possible if you do not wish to be contacted with NUCA grassroots communications. If you wish to opt-out in the future, please email [zack@wymanassociates.net](mailto:zack@wymanassociates.net) with your name and NUCA Chapter.

Note: this option will also remove you from member surveys and news broadcasts sent out through Muster
