

"The Pipeline" NUCA OF THE CAROLINAS

PRESIDENTS REPORT—July, 2023

It has been busy here in the construction world for the Carolinas. Longer days and drier weather lead to the busiest time of our year. It was good to see all the posts out there for those that participated in the Trench Safety Stand Down. Also, if you missed it we were able to obtain a proclamation from NC and SC governors stating their support of TSSD. Remember if you haven't already, send the documentation to National NUCA about your participation in TSSD week. Thank you for all that participated! And I would also like to thank those that had special events to promote the week and its importance in our industry along with getting the word out to others that might not be aware.

Next event we have coming up at the end of the month is the NUCA Open at Forest Oaks in Greensboro. It is another sell out year. I hope all that wanted to participate were able to get a spot. Thank you to all the sponsors and supporters of this event. I am sure with our time of year it will be a hot day with a chance of thunderstorms out on the golf course, but as usual I am sure it will be a great time and a wonderful event. We decided to push the board meeting to the day before so that we were able to have an earlier tee time than the past couple years which will hopefully help us to stay a little cooler and finish up before the storms roll in. If you have any questions or need any additional information about the NUCA open please let Linda or myself know.

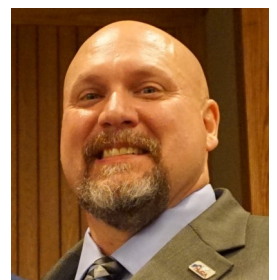

I would like to encourage you to sign up and get your rooms for the fall conference at the wonderful Omni Grove Park Inn in Asheville. Linda should be sending out the information soon if you do not already have it. Rooms are limited and will probably go quickly so if you want to join us in Asheville get your room before they are gone. The dates for this are October 12th-15th. We have some great speakers and events lined up and I cannot wait. It is my wife's favorite time of year to visit the mountains, between the beautiful fall colors and weather. It is sure to be a rememberable experience. I will also be passing the gavel over to Mike Hewitt with Garney at the awards banquet on Saturday night.

For those that are interested the National NUCA conference is coming up on October 26th-28th. It is in Naples, FL. I am sure that it will be a beautiful time of year to be down there. Room block and registration is open and has been for a little while so not sure how many they have left. If you would like to attend, please sign up soon.

I would like to thank those that were able to attend the Washington Summit. NUCA does a great job of preparing our participants with the material to speak to our representatives in Washington about the things that are important to our industry.

NUCA has had several new members sign up and this is all because of you guys telling others what NUCA can do for them. Keep up the good work and lets continue to grow our chapter and help those in our industry to stay safe and learn what is going on and get them involved.

**Stay Safe,
Scott Little
President-NUCA of the Carolinas
State Utility Contractors**

Sunbelt Rentals hosted Trench Safety Event in Charlotte

B.R.S. Inc. found a spot under a tree to keep cool while having safety talks!

State of South Carolina Governor's Proclamation

WHEREAS, trenching and excavating are two of the most hazardous construction operations with accidents occurring in trenches as shallow as five feet deep and no warning before a cave-in; and

WHEREAS, there is a need for employees who work in and around trenches and excavations to have access to information about current excavation requirements and safety procedures for working in trenches; and

WHEREAS, by reaching as many employees as possible, the number of serious and/or fatal injuries that occur each year from trenching and excavating hazards can be reduced; and

WHEREAS, it is necessary for employers to focus on trench and excavation hazards and to reinforce to their employees the importance of using trench protective systems; and

WHEREAS, companies around the state should acknowledge and draw attention to specific hazards related to working in and around trenches and excavations; and

WHEREAS, employers in South Carolina will participate in the Trench Safety Stand Down Week to showcase their commitment to safe and healthy workplaces.

NOW, THEREFORE, I, Henry McMaster, Governor of the great State of South Carolina, do hereby proclaim June 19 - 23, 2023, as

TRENCH SAFETY STAND DOWN WEEK

throughout the state and encourage all South Carolinians to help raise awareness and reinforce the importance of using trench protective systems and protecting workers from trenching hazards.

Henry McMaster

HENRY McMASTER
GOVERNOR
STATE OF SOUTH CAROLINA

State of North Carolina

ROY COOPER
GOVERNOR

TRENCH SAFETY STAND DOWN WEEK 2023

BY THE GOVERNOR OF THE STATE OF NORTH CAROLINA
A PROCLAMATION

WHEREAS, trenching and excavation work are construction operations performed by many residents every day; and

WHEREAS, the National Utility Contractors Association (NUCA), in partnership with the Occupational Safety and Health Administration (OSHA) share a belief that safe trenching and excavating are critical functions; and

WHEREAS, it is vital that construction employers and employees who work in trenching and excavation have access to education and training in identifying hazards associated with these activities; and

WHEREAS, companies around the state should acknowledge and draw attention to specific hazards related to working in and around trenches and excavations; and

WHEREAS, trench collapse deaths are preventable with proper shoring, sloping, and training; and

WHEREAS, despite increased training and hazard identification, recent national statistics on trench injuries and deaths show an alarming increase, with OSHA reporting 39 trench collapse deaths in 2022, up from 15 fatalities in 2021; and

WHEREAS, the State of North Carolina encourages residents to recognize this annual week to focus on education and training in trenching and excavating hazard awareness known as the "Trench Safety Stand Down," in partnership with NUCA, its chapters, and OSHA;

NOW, THEREFORE, I, ROY COOPER, Governor of the State of North Carolina, do hereby proclaim June 19 - 23, 2023, as "TRENCH SAFETY STAND DOWN WEEK" in North Carolina, and commend its observance to all citizens.

Roy Cooper

ROY COOPER
GOVERNOR

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Great Seal of the State of North Carolina at the Capitol in Raleigh this fourteenth day of June in the year of our Lord two thousand and twenty-three and of the Independence of the United States of America the two hundred and forty-seventh.

Safety & Risk Management

Greetings Everyone! Summer is here!

Many of our job sites and areas in the Carolina's are now seeing 90 degree days with Heat Index values reaching over the 100 degree mark. With a tremendous amount of interest from the Safety Side of our Industry bringing awareness on the dangers of Heat Illness, we encourage all of our members to make Heat Illness a priority every day and train your employees on Heat Illness recognition and especially work with your new hires on becoming acclimated to the heat that we work in during this time of the year. Heat Illness is preventable. It takes paying attention to your body, properly hydrating, getting the proper rest needed for the work we perform, and educating our employees on how to recognize the dangers of heat illness and take care of themselves. Please stay safe out there during these next few hot months and communicate, communicate, communicate to your employees the dangers of Heat Illness!

Our Safety and Risk Management Committee would like to thank everyone who participated in the Annual National Trench Excavation Stand Down Week. We had a lot of our members and contract partners in the Carolinas participate in the Trench Safety Stand Downs across both states and for that we are very thankful for the attention this week and your efforts brought to this critical component of our industry. Thank you all for your participation!

Our next Safety and Risk Committee Meeting will be held on Tuesday, August 8th, 2023 in Greensboro, NC. We are honored to have NC811 as our host and will be conducting our meeting at their location at 5009 High Point Road in Greensboro. Our recurring theme this year continues to be "Moving our Trench Incidents to Zero" and that is our intent as we continue to take this message across the state. We have an outstanding program put together for the Piedmont / Triad Region and hope to see many of you there as we continue to build on the importance of Trench Excavation Safety.

Everyone, please also remember to "Think Inside The Box" and visit the website <https://thinkinsidethebox.info> or visit the site on LinkedIn. This is a tremendous resource for creating and maintaining an awareness level of the importance of Trench Excavation Safety. This awareness level movement, now adopted by our National NUCA Organization, is canvassing the country now and we want to continue to build on this initiative by getting the word out to all of our employees and trade partners in the industry.

Hope all of you continue to have a great summer. Be safe out there and remember to Drive Defensively while on the roads. Auto / Fleet incidents continue to be a part of our industry that we are all dealing with. Talk "Safe Driving Habits" with your employees!

Our Safety and Risk Committee is an excellent opportunity to network and help keep our industry strong and viable through Productive Safe Work! We are here for you!

Stay healthy! Stay focused! Stay SAFE!

Greg Maready – NUCA Safety / Risk Committee Chair

NUCA members now have a choice
in commercial insurance options.

NUCA Choice Includes:

- Automobile
- Contractor's E&O
- Crime
- Cyber Liability
- Equipment
- Property
- General Liability
- Inland Marine
- Umbrella
- Workers' Compensation
- Surety Bond Discounts

New Safety Partnership With OSHA, Trades, Unions Signed By NUCA

NUCA signed an important agreement June 22 with several construction industry stakeholders to better protect employees who perform trenching and excavation work. The agreement between OSHA, NUCA and other trade associations and unions establishes the "Partners for Safe Trenching and Excavation Operators Alliance." The alliance will help small- and medium-sized construction businesses train and educate employees on how to prevent the four leading construction industry hazards (falls, caught-in or caught-between, struck-by-objects, and electrocution). More [here](#).

Your Completed Trench Safety Stand Down Reports Are Needed

The seventh annual Trench Safety Stand Down (TSSD) held last month delivered to thousands of our industry's employees what NUCA sought: an increased attention to safety around jobsite excavations.

So far, 248 companies at 1,726 jobsites trained 17,298 employees on safe working techniques around and in trenches and excavations. We need every NUCA member who held an event to let us know how many of your employees benefitted from this training. Please send NUCA your completed TSSD reports by July 28 (and your event photos, too). Helmet stickers will be going out soon--but only if we have your reports! The TSSD online reporting form is found at nuca.com/tssd [and here](#).

2023 Water Finance Conference: Aug. 8-9 With NUCA CEO Carlson

Are you a water and wastewater finance professional? The 2023 Water Finance Conference is aimed at reaching utility executives involved in the water, wastewater, and stormwater fields. The panel discussions will include NUCA CEO Doug Carlson and other utility construction experts. Attendees can take part in panel discussion, earn CEU/CPEs, and take home information that can help you or your municipal authorities create a water financing program that works. The conference will be held Aug. 8-9, 2023 in Cleveland, Ohio. Find out more about the conference at waterfinanceconference.com.

"Made In America" Office Offers Waiver Database

The Office of Management and Budget's (OMB) "Made in America" office has compiled a database of approved or submitted waivers from "Build America Buy America" Act (BABAA) requirements. The waivers are published by OMB to make manufacturers and small business aware of purchases that require products and materials not currently available domestically, in sufficient quantity or quality.

"We publish these waivers to help American businesses identify and fill gaps in the domestic supply chains," states the office's website. As of today, there are 646 waivers in the searchable database, found at www.madeinamerica.gov/waivers.

2023 NUCA Convention & Exhibits, October 26-28: Registration Open

2023 is the year to "Make NUCA Yours!" and our fall convention the big event to "Build Your Business." Pencil in on your calendar the 2023 NUCA Annual Convention & Exhibits, our very popular annual member get-together. This year, the Convention will be held October 26-28 in Naples, Florida, at the Naples Grande Beach Resort. (The hotel liked our members so much in 2021 they wanted us to come back!) Our preliminary program is available at nucadigs.com and includes our relaxed favorites and new events. Our keynote speaker, generously sponsored by NUCA National Partner Core & Main, is the charismatic [Randy Fox](#), former NCAA official and corporate leader.

We want you to see you in sunny Florida this fall! (We also want to see you and your guest in Palm Springs, California, for the 2024 NUCA Annual Convention & Exhibits, March 20-23, 2024.) Registration for the 2023 Convention is now open at www.nucadigs.com.

NUCA's Newest Membership Benefit: NUCA Choice

NUCA is proud to unveil this month our newest member benefit, NUCA Choice. FCCI Insurance Group and NUCA announced on June 1 their joint partnership for FCCI to become NUCA's preferred commercial insurance carrier. The multi-year agreement is called NUCA Choice and is offered to NUCA members where FCCI writes business. NUCA Choice will offer NUCA members commercial insurance options for auto, crime, property, general liability, marine, surety, umbrella, and workers' compensation. Members can also consult with FCCI's local risk control team and use the FCCI Risk Solutions Network, a cloud-based platform to help participants stay compliant, manage risks, and educate employees to build a safer workforce. To find out more, go to NUCAChoice.com.

NUCA Advantage: Make It Yours Today!

"Make NUCA Yours" is our slogan for 2023. Your NUCA membership investment can deliver benefits far in excess of its cost--but only if you ask your human resources office to explore what it offers. Start by forwarding this e-mail to them and ask them to check out NUCA Advantage. Our online portal leads to expanded healthcare benefits options for your company, as well as payroll, wellness, compliance, benefits administration, 401K retirement programs, online training, OSHA logs, and a wealth of free HR benefits available only to NUCA members. Find our expanded NUCA Advantage benefits program at www.NUCAAdvantage.com.

Share The Details About Trenchless Tech Efficiency

Are you seeking to know more about horizontal direction drilling, or auger boring? NUCA's "Trenchless Construction and New Installation Methods" manual can help your estimators, engineers, and project managers recognize that trenchless technology could deliver large cost savings to your excavation projects. The 148-page, full-color illustrated manual carefully addresses and explains the most common trenchless installation methods. Buy a copy for your local planning department to introduce their staff to these cost-efficient subsurface construction methods. The manual is available exclusively from NUCA and can be ordered online at www.nuca.com/trenchlessmanual.

Are You A Part Of The NUCA-STAR Company Safety Program?

NUCA STAR
SAFETY TRAINING AWARENESS RECOGNITION

All NUCA members want to send its workers home safely every night. By participating in the NUCA STAR program you can reach those safety goals and raise the bar on safety best practices in the utility construction industry over time.

The STAR Program has been developed as a tool to aid NUCA members in evaluating, updating, and recognizing their safety program and practices. Companies who volunteer to participate in the evaluation process should see lower incident rates and accidents across the board.

KEY EVALUATION AREAS

Leadership + Culture + Procedures + Records & Database Management

For more information contact:

Mike Flowers - Director of Safety, Education, & Training
mike@nuca.com | #703.358.9300
www.nuca.com/nucastar

www.nuca.com | #WeDigAmerica | #WeDigSafety

Safety is the utility construction industry's first priority. It is also the top priority of NUCA. To help our members reach that goal, NUCA introduced this summer the NUCA Safety, Training, Awareness and Recognition (NUCA STAR) Program. The NUCA STAR Program was developed by the association's Safety Committee to help evaluate, update, and recognize a member company's safety program and practices. NUCA members who volunteer to participate should see lower incident rates and accidents on their jobsites and in their company facilities. There is no cost to NUCA members. More at nuca.com/nucastar.

This summer SC811 continues to shine the light on damage prevention for residents and excavators in the great state of South Carolina. Our new webinar page is a click away with a variety of live and recorded videos hosted by SC811 staff, visit our website SC811 Excavate & Elevate.

During May and June excavator notifications were steady. We have averaged over 97,000 notifications each month. Currently Greenville, Richland and Charleston counties are in the top three in notices with electric, fiber and cable being the top three work types.

The public awareness team had a blast educating youth groups and participating in community events.

This August we will celebrate our 45th anniversary on National 811 Day. Our Underground Simulated Emergency training exercise registration is open with limited space, visit our website SC811 USE to register.

Have a fun and safe summer!

Misty Wise- Executive Director

South Carolina 811

(O) 803-451-7715

misty.wise@sc811.com | www.sc811.com

Follow us: Facebook, Twitter, Instagram, YouTube & TikTok

Welcome to the dog days of summer! But work doesn't stop when it's hot. NC 811 is still working hard to keep the phone wait time down but note that you should use the digital options available whenever possible.

The June numbers were slightly down (1.2%) for an overall increase YTD 6.7%. Based on what we know about money being released for rural fiber in NC (\$1.5B here alone) we expect that the volume is going to rise significantly as we close this year and enter 2024.

Wait: is he already talking about next year?

Yes, because I am not a huge fan of the summer. That being said, we will be celebrating 8-1-1 day with our employees and families at the ball field next month and you will see more advertising and interviews as well. We will be in Asheville for the July Q2 Board meeting July 21.

I know I say it every month but patience through the 811 process is very important. I've seen some emails that let the frustration come to the surface and once you get one part summer heat and one part frustration the end result is never smooth cooperation.

Put yourself in the other's shoes, do your part to keep noise out of the system and stay cool through every excavation. Fall and the Grove Park conference will be here soon enough!

Stay safe!

Louis Panzer
Executive Director
North Carolina 811

Update from the Young Leaders

Young Leaders Outreach Event

Our Outreach Committee was invited to Bobbitt's Construction Field Day where we were able to spread our love for the utility industry to **over 150** Wake County high school students.

We had a blast sharing industry stories and hands-on demonstrations of how underground water utilities work—huge shout out to **CJ Batista** with **Batista Grading Inc** for generously letting us use their custom Water System Simulator.

Outreach Committee Spotlight

We would like to give a quick shout-out to our NUCA of the Carolinas Young Leaders Outreach Committee for their continued hard work to help land these local outreach events and expose the future workforce to the utility industry in an engaging and fun way! If you would like to get involved in this committee, please reach out to Ryan Mack (rmack@parknc.com) or Gunnar Barringer (gbarringer@brsincorporated.com).

- **Outreach Committee Chair:** Ryan Mack – *EHS Manager* at Park Construction
- **Outreach Committee Co-Chair:** Gunnar Barringer – *Division Manager* at BRS Inc
- **Outreach Committee Member:** David Singletary – *Safety/Loss Prevention Coordinator* at BRS Inc
- **Outreach Committee Member:** CJ Batista – *Owner* of Batista Grading
- **Outreach Committee Member:** Steven Price – *Supervisor* at Foremost Pipeline
