

"The Pipeline"

NUCA OF THE CAROLINAS

PRESIDENTS REPORT

November 2022

It was great to be back in Asheville at The Grove Park Inn. I would like to thank everyone who attended the fall conference. What a wonderful event that we had with great speakers, great exhibitors, and great attendance. A special thank you to the new members that joined us there – CJ Geo, Infrastructure Solutions, Transit and Level, Intragrade, Leak Locators, American Cast Iron Pipe, and Regulatory Solutions. I would also like to thank Paul Hunter for doing such a wonderful job this past year, it has been a pleasure working alongside of him and Brian Wilkerson the past couple years. It was great that Doug Carlson (CEO) and Zack Perconti (Government Affairs) were able to join us from NUCA National along with the current Chairman of the Board Ryan Kinning (Penro Construction Co from Pender, NE).

For those of you that were not able to attend, Kevin Cripps was named Ditch Digger of the year and thankfully both of his parents were able to join us (Fred Cripps past president and past Ditch Digger). Thank you, Kevin, for all that you do for our chapter and your service to NUCA National.

I would like to welcome the new board members: Mike Evans with Palmetto Rock, Sid Carpenter with Carolina Grading and Utilities, and Brian Dillenback with James River Equipment. I am glad that you have agreed to come onto the board. I would also like to take this opportunity to thank Keith Burke for his many years of service on the board and as a past president. And I would like to thank Greg Maready for your continued leadership of the S&RM Committee.

We have a lot of exciting things going on this coming year from Young Leaders events, Clay Shoot (info coming soon), Spring Conference in Myrtle Beach and Safety and Risk Management Meetings to name a few. This coming year will be packed with opportunities for you to get involved and stay plugged in.

I hope you all stay safe and continue to let others know about our great organization. While I am writing this, we are in the middle of a membership drive, but it is never a bad time to tell others about what NUCA can do for them and share the events we have going on.

It is an honor that you have selected me to serve as your president this coming year. Let me know if there is anything that I can do for you, your company, or to help get you plugged into NUCA of the Carolinas.

I hope you and your families have a Happy Thanksgiving and a Merry Christmas!

CHAIRMANS MESSAGE

Happy Fall!

Just want to send out one final message as we close out the year and what a tremendous year it has been for our NUCA Safety and Risk Committee! Shout out to everyone who dedicates and commits their time to attend and support this critical and important aspect of our organization here in the Carolinas NUCA Chapter.

Special thanks to Linda Goslee our Executive Director and to Jason Walker our Safety and Risk Committee Vice-Chair. Without these two and their support, we would not be able to have the program we have.

There is a saying that I love to share with our employees... “The reward for safe work to-day.... Is tomorrow!” I share this with all of you with a simple heartfelt “Thank You” to each and everyone of you who accepts the call each and every day to wake up and head out to your job sites and make life better for the citizens and communities we serve. With Thanksgiving, Christmas, and the Holiday Season right around the corner, I encourage all of you to prepare for some well earned time off to celebrate the Holiday Season with your families and friends. And while doing so, take time to give thanks for all the men and women who dedicate themselves each day to working in our industry. Without you all, the essential work in Utilities would not get done. For that and for you all, I am truly thankful. We are blessed.

Stay healthy! Stay focused! Stay SAFE! Enjoy the upcoming Holidays and finish the year strong! And see you all again in 2023!!!

Stars In Safety: NUCA Announces First Platinum Winners Of New STAR Safety Program

Safety is a vital component of every utility construction jobsite and employee activity. The National Utility Contractors Association (NUCA) is proud to announce the first two members who have completed the association's new safety program enhancing and recognizing this critical aspect of construction.

BRS, Inc. of Richfield, North Carolina, and Concrete Cutting Systems Inc. of Philadelphia, Pennsylvania, are the first two construction companies to achieve the STAR Program's top Platinum status. Both are NUCA members.

NUCA's new STAR (Safety, Training, Awareness and Recognition) Program provides a venue for every company in the utility construction industry to measure the effectiveness of their safety programs and recognize how these important company programs can be improved.

"Congratulations to our first two Platinum winners," said Kirk Blomgren, NUCA Safety Committee Chairman, and Vice-President of Safety and Quality of Petticoat-Schmitt Civil Contractors. "These companies have shown strong dedication to creating and managing world class safety programs, and more importantly, honoring their commitment to ensure that their employees make it home safely when the working day is through."

The STAR Program categories of Bronze, Silver, Gold, and Platinum allow companies to review their processes and evaluate their safety programs' strengths and potential areas of improvement in the important areas that provide a lasting path to safety success. Evaluation areas are Leadership, Records Management, Culture, and Procedures. Under these four core areas are subsections scored on a point system meeting specific guidelines that a company must meet for each category.

Platinum winners were chosen by the STAR review board based on their submissions following the STAR Program guidelines. The overall winner in the Platinum category for 2022 will be announced at the NUCA Safety/Damage Prevention Conference in Denver, Colorado, to be held November 17-18, 2022.

NUCA's website (www.nuca.com/nucastar) contains detailed information on NUCA STAR Program guidelines, as well as the application process for members and non-members. The STAR Program was unveiled in June 2022 during Trench Safety Month.

All participants who attain one of the four levels of the STAR PROGRAM are recognized as companies who are sincere in their efforts to build effective programs and are to be commended for their participation in ensuring the safety of their employees.

The goal of this program is to help industry members master one of the most important functions of a successful company—safety—and to help ensure industry employees stay healthy and safe while they build our nation's vital core infrastructure projects.

It was great to see everyone at the fall conference in Asheville last month! I was pleased to be able to present information about NC 811 activities as well as some national updates on CGA DIRT and the new Damage Prevention Institute. Staying aware of these reports and efforts can help you stay ahead of any actions that will affect your business. It is also a great opportunity for all stakeholders to “look in the mirror” and ask what they can do to help smooth the 811 process and reduce damages.

We are bracing for an unprecedented surge in excavation activity in 2023. This means patience and communication are going to be critical elements in every job.

In the meantime we are roughly 7% up in volume already. I ask that you do the following to help reduce “noise” as we prepare for the surge:

1. Make sure a good field contact number is on every request.
2. Review your processes to assure no tickets are being created before or after work is happening.
3. Plan to participate in your local UCC meetings. Invite a friend!

Work smart, stay safe

May you all have a blessed Thanksgiving and I will see you around the bend.

Louis Panzer

Executive Director

North Carolina 811

336-707-1736

South Carolina 811 hopes autumn “leaves” you feeling refreshed! Our public awareness team joined forces with Paradigm to provide education on underground utility damage prevention and compliance training. We offered free training to excavators, first responders, public officials, members, and pipeline operators across South Carolina.

We have created a new Spanish landing page on our website. Here, you can view all Spanish-only content, order Spanish printed material, and download educational resources from our website <https://sc811.com/811-en-espanol/>. We are in the process of creating Spanish training videos for our online training catalog as well. Stay tuned for more!

The amount of locate notices in South Carolina continues to increase yearly. Every month in 2022 has exceeded the ticket volume for the previous four years, September has a four-year average of 94,000 tickets. The most work continues to occur in Charleston, Richland, Horry, Greenville and Spartanburg. SC811 September Call Center Stats

Incoming Calls 19,317 Total Tickets Received 111,918

Have a safe and happy start to the holiday season, and as always, DIG SAFE!

INDUSTRY NEWS

NUCA's All New Safety & Damage Prevention Conference: Nov. 17-18 in Denver, Colorado

The Safety/Damage Prevention Conference offers the unique opportunity for safety management to hear from industry experts on a wide variety of topics that impact the industry and network with other utility construction safety managers from across the country. This conference also provides an opportunity to address and strategize how members can better navigate complex damage prevention issues in our industry. Speakers include Aaron Witt of WittBuilder, Kirk Blomgren of Petticoat-Schmitt, and John Olachea of OSHA. [Click here](#) to learn more, download the complete speaker list, and register for the event, or go to nuca.com/sdpc.

EPA Releases \$1.3 Billion for Water Infrastructure Projects in 18 States

Infrastructure Act money continues to make its way to states, the EPA announced on Sept. 22. \$1.3 billion in Clean Water SRF will be used for drinking water and clean water projects, focusing on benefiting underserved communities. The funds are the first installment of \$44 billion the agency will be sending to states for water infrastructure projects over the next five years. Pennsylvania is looking at \$240 million, the highest funding level among the 18 states. NUCA's advocacy on last year's Infrastructure Act is beginning to deliver to our industry in a big way—with more to come.

Dig This! Podcast: Chapter Workforce Development Programs

This month's podcast discusses several workforce development programs underway in our Chapters. The utility construction industry has a recurring labor shortage that awaits new approaches and ideas, some of which contractors can do immediately. This episode discusses the next generation of employees to be involved in these NUCA-supported programs:

--Renee Nutter of the Nutter Family Foundation talks about Dozer Days and their 2023 program with several NUCA Chapters

--Workforce development coordinator Annette McRoy of NUCA of Nebraska discusses her chapter's focus on finding skilled employees for their members

Dig This! can be found at nuca.com/podcast or on all major podcast services.

Petticoat-Schmitt Awarded NUCA STAR's Top Platinum Level Award

NUCA is proud to announce that member Petticoat-Schmitt Civil Contracting of Jacksonville, Florida, achieved the STAR Program's Platinum Level status. NUCA's new STAR (Safety, Training, Awareness and Recognition) Program provides a venue for every company in the utility construction industry to measure the effectiveness of their safety programs and recognize how these important company programs can be improved. NUCA's website (www.nuca.com/nucastar) contains detailed information on the program's guidelines, as well as the application process for NUCA members and non-members. For more information on your own company's participation in this new safety program, please contact NUCA's Mike Flowers at mike@nuca.com.

Association News

Member Benefit Alert - Prepare Your Listing for the Annual Buyer's Guide!

Deadline is October 31! All NUCA Members who have categories on their online profile are listed in the Online NUCA Member Directory. Associate Members are also listed in the NUCA Buyers Guide issue of Utility Contractor. To ensure that your listing is up to date for the November/December issue, please log into your NUCA Member Dashboard by visiting www.nuca.com. Please note: Members without categories selected may not be included in both the Buyer's Guide and the nuca.com online directory, so make sure your organizations information is up to date--don't miss out on potential business referrals! Review your information before Oct. 31. For questions about logging in or your NUCA membership benefits, please contact director of member benefits Lauren Hensley at lauren@nuca.com.

Are You A Part Of The NUCA-STAR Company Safety Program?

Safety is the utility construction industry's first priority. It is also the top priority of NUCA. To help our members reach that goal, NUCA introduced this summer the NUCA Safety, Training, Awareness and Recognition (NUCA STAR) Program. The NUCA STAR Program was developed by the association's Safety Committee to help evaluate, update, and recognize a member company's safety program and practices. NUCA members who volunteer to participate should see lower incident rates and accidents on their jobsites and in their company facilities. There is no cost to NUCA members. More at nuca.com/nucastar.

Do You Have Enough Leaders? NUCA's Essential Skills for Crew Leaders

NUCA's Essential Skills for Crew Leaders Training is a two-day, intensive course that trains your employees to be effective leaders and communicators so they can provide clear direction to your crew, and plan and schedule the crew's work to maximize safety, production, and profit. With all the necessary hiring coming up for new infrastructure projects, now is a great time to prepare by ensuring your veteran employees are ready to run your new crews. Find out more at nuca.com/crewleader, or contact NUCA's [Mike Flowers](#) for more information at mike@nuca.com.

NUCA Careers Website Open For Your Business: Post-Interview-Hire!

NUCA Careers is a premier online career resource connecting employees to the utility construction and excavation industry's talented professionals. Take advantage of your NUCA membership by posting your open jobs with NUCA Careers and tap into a concentrated talent pool of industry professionals at a fraction of the cost of online or local ads. Search the database, complete your employer profile, and let the resumes come to you. Visit online our website careers.nuca.com to learn more about this NUCA service.

NUCA STAR

SAFETY TRAINING AWARENESS RECOGNITION

All NUCA members want to send its workers home safely every night. By participating in the NUCA STAR program you can reach those safety goals and raise the bar on safety best practices in the utility construction industry over time.

The STAR Program has been developed as a tool to aid NUCA members in evaluating, updating, and recognizing their safety program and practices. Companies who volunteer to participate in the evaluation process should see lower incident rates and accidents across the board.

KEY EVALUATION AREAS

Leadership + Culture + Procedures + Records & Database Management

For more information contact:
Mike Flowers - Director of Safety, Education, & Training

NUCA MEMBER CATEGORIES

WHICH NUCA MEMBERSHIP CATEGORY IS RIGHT FOR YOUR COMPANY?

Contractor

Contractor members are at the heart of the NUCA mission. These companies are engaged in **bidding & performing**:

- Construction or rehabilitation of any/all types of utility systems
- Excavation
- Site Preparation

Specialty Contractor

Specialty Contractor members **employ & provide labor** that takes place on the job site. They **do not bid or perform utility construction, rehabilitation, or excavation work**. Examples of specialty contractors are:

- Paving contractors
- Surveying companies
- Traffic management/flagging companies
- Environmental contractors & more

Associate (Supplier)

Associate (supplier) members are companies involved with the utility construction/excavation industry but **do not provide labor or work on the job site** beyond the delivery of equipment or material. Supplies include:

- Equipment
- Materials
- Support services or software

Institutional

Institutional members are organizations that are involved in the utility construction/excavation industry. They include:

- Educational Institution (schools, universities)
- Government Agency (local, state, or federal)
- Associations, Non-profits

Whichever category, NUCA provides members and their employees in the utility and excavation industries with great value for their investment!
